(a)
10° S–10° N average of the Δ(age spectrum) variation related to ENSO @400 K (ERA–I)
Age spectrum climatology
El Nino composite
La Nina composite
Tropics
Age spectrum composites
Age spectrum climatology
x 10^-3
(b)
10° S–10° N average of the Δ(age spectrum) variation related to ENSO @400 K (JRA–55)
Tropics
Transit time [month]
(c)
40° N–55° N average of the Δ(age spectrum) variation related to ENSO @350 K (ERA–I)
Midlatitude
(d)
40° N–55° N average of the Δ(age spectrum) variation related to ENSO @350 K (JRA–55)
Midlatitude
Transit time [month]
