The graph shows the concentration of NH₃ (µg m⁻³) over different months from 3/16 to 3/16.

- **Spring** (March to May):
  - March 16 to 30
  - April 6 to 14
  - May 1 to 8

- **Summer** (June to August):
  - June 23 to 30
  - July 11 to 17

- **Autumn** (September to November):
  - September 1 to 9
  - November 1 to 8

- **Winter** (December to February):
  - December 10 to 16
  - January 3 to 9

The concentration is indicated by different colors, with each color representing a specific height level.
