

(a) Scenario 1: annual NO_3^- budget at DML

NO_3^- flux ($\text{pg m}^{-2} \text{s}^{-1}$)

Gain: stratospheric/tropospheric input

?

(b) Scenario 2: NO_3^- budget at DML in January

NO_3^- flux ($\text{pg m}^{-2} \text{s}^{-1}$)

Gain: stratospheric/tropospheric input

?
