During the initial submission and publication process, some information was mistakenly omitted from the Acknowledgements and Financial Support section. Please see the updated and complete versions of the Acknowledgements and Financial Support section below.

programming period 2014–2021; a D-TECT ERC Consolidator Grant funded by the European Research Council (ERC, grant no. 725698); and the PANGAEA4CalVal project (grant no. 101079201) funded by the European Union.

Acknowledgements. Antonis Gkikas acknowledges support by the Hellenic Foundation for Research and Innovation (H.F.R.I.) under the “2nd Call for H. F. R. I. Research Projects to support Post-Doctoral Researchers” (project acronym: ATLANTAS, project no. 544). We thank NASA/LaRC/ASDC for making the CALIPSO products available, which are used to build LIVAS products. We thank PANGAEA and ACTRIS for the data collection, calibration, processing, and dissemination.

Financial support. This research has been supported by the European Space Agency (grant no. NEWTON, 4000133130/20/IBG//Aeolus+ Innovation (Aeolus+I)); EMME-CARE, which has received funding from the European Union’s Horizon 2020 Research and Innovation Programme (under grant agreement no. 856612) and the Cyprus Government; ACCEPT, which is co-financed by the Norwegian Financial Mechanism (85 %) and the Republic of Cyprus (15 %) in the framework of the
