Interactive comment on “Atmospheric pollutant outflow from southern Asia: a review” by M. G. Lawrence and J. Lelieveld

M. G. Lawrence and J. Lelieveld

mark.lawrence@mpic.de

Received and published: 3 July 2010

We would like to express our gratitude to all three referees for their positive reviews, for their patience in reading the extensive manuscript so thoroughly, and for their very helpful, constructive comments. All of the suggestions for improving the paper are sensible, and we will incorporate all of these recommendations to the extent possible before submitting the revised version. A detailed summary of the modifications will accompany our revised submission.
