

Interactive comment on “Patterns of mercury dispersion from local and regional emission sources, rural Central Wisconsin, USA” by A. Kolker et al.

A. Kolker et al.

akolker@usgs.gov

Received and published: 16 March 2010

Response to interactive comments on Discussion paper by Kolker et al., Atmos. Chem. Phys. Discuss., 10, 1823-1846, 2010

Comment 2, by Anonymous Referee #1, posted 11 March, 2010

Referee #1 seems to indicate that after a second look, the manuscript is acceptable in its present form. We consider the points raised previously by this referee in Comment 1 to be relevant, and after some delay, these have now been addressed.
