

Interactive comment on “Earth’s energy imbalance and implications” by J. Hansen et al.

J. Hansen et al.

jhansen@giss.nasa.gov

Received and published: 29 November 2011

The Earth’s energy imbalance that we discuss in our paper is based on observations, primarily on ocean temperature measurements, not on a model. The paper clearly describes our scientific methodology and references papers in the peer-reviewed scientific literature.
