Dear reviewer,

Attached as the supplement is our response to your comments. We apologise for the long time it took to prepare this. Substantial calculations were required to address the issues you raised. We appreciate the time you have taken to review the manuscript and find that the referee comments have greatly improved the paper. Unfortunately the response below will also be quite lengthy and time-consuming to go through. We hope you do not mind as it is necessarily long only to address the issues you raised.

Yours Sincerely,

C13234
