Received and published: 20 January 2012

I am posting the point-by-point responses to review #2, which were uploaded through the File Manager on Dec. 07, 2011, but did not show up here in the public forum. Please find the detailed review responses, supplementary spreadsheet, and revised paper in the attached zip file. In summary all of the recommendations have been integrated into the current text, and specific line/paragraph references to those changes can be found in the point-by-point response.

Thank you and I'm sorry about this confusion.
