

Interactive comment on “The observation of chemiluminescent NiO* emissions in the laboratory and in the night airglow” by W. F. J. Evans et al.

W. F. J. Evans et al.

edward.llewellyn@usask.ca

Received and published: 19 July 2011

The authors' responses have been sent under separate cover email as it includes a copy of the accepted NiO spectrum model paper. The reviewers asked for more information on this model and we believe that this is best answered by provision of the paper.
