Received and published: 10 May 2012

A mistake occurred during the internal review process of this paper; this mistake led to two co-authors not reviewing the paper. Therefore, Bob Yokelson should not be considered a coauthor of this manuscript. Further the USFS did not perform a policy review prior to submission. Therefore, we have requested that the paper not move forward and will submit as a separate discussion paper the properly reviewed and edited paper. We apologize for the confusion this has caused.
