

Interactive comment on “Humidity-dependent phase state of SOA particles from biogenic and anthropogenic precursors” by E. Saukko et al.

E. Saukko et al.

erkka.saukko@tut.fi

Received and published: 22 May 2012

The authors thank Dr Murray for the relevant comment regarding the implications of solid phase of SOA for ice cloud formation (Murray et al., 2010). The reference cited and corresponding discussion is added to the revised manuscript.
