Please see a correction to Fig. 2 below. The Emissions Model was stated incorrectly as 1. Now complete with color scale. Discussions are not affected. Apologies...

Fig 2: CO emissions in $\text{gC m}^{-2} \text{yr}^{-1}$ for $c_w = 0.2$ and Emissions Model 2, average 2001–2006. Upper panel: GFED3 burned area. Lower panel: L3JRC burned area.
