Received and published: 21 March 2012

The following paper discussed the importance of wet removal for the seasonality of Arctic haze. It should be cited as well.

Liu, J, Song-Miao Fan, Larry W Horowitz, and Hiram Levy II, February 2011: Evaluation of factors controlling long-range transport of black carbon to the Arctic. *Journal of Geophysical Research*, 116, D04307, DOI:10.1029/2010JD015145.
