Received and published: 23 December 2013

The authors would like to thank the anonymous Referee 2 for her/his careful reading of our manuscript and for finding it consistent and interesting. We appreciate that he/she recommends minor revision and we have considered all of the specific comments done in the review.

The details of our response together with the corrected manuscript are in the attached file.

Pauline Maury On behalf of my coauthor.

C10367
