Received and published: 19 April 2013

We wish to thank Reviewer #2 for his critical and useful comments, which helped improve considerably the quality of the manuscript. All the recommendations of Reviewer #2 have been answered in the present document and by modifications of the manuscript. We hope that we have addressed satisfactorily all the general comments, and we took into account all the minor comments as suggested. The detailed answers to Reviewer #2, along with answers to Reviewer #1, are detailed in the following supplementary material.

C1534
