Received and published: 23 October 2013

We thank the reviewer for the appreciative and supportive review.

The suggested corrections have been implemented, namely:

Specific comments: "I would suggest to shift the Appendixes to the Supplementary Material section."

The Appendices were shifted to the Supplementary material

Technical corrections: "(14265,14-15) Please use also “morning” and “evening” in the

C8386

text along with the superscripts of the dates."

The respective sentence was corrected as follows: "The effect of wind shear is clearly demonstrated by the sequence of successive 22m (morning), 22e (evening) and 23 January profiles. . ."
