

**Variability and trends in dynamical forcing of tropical lower
stratospheric temperatures**

by S. Fueglistaler *et al.*
Final version.

Princeton, November 18, 2014

Dear Editor,

I have followed the recommendations of the reviewer and have changed the manuscript exactly as suggested by the reviewer. The 2 additional columns in Table 4 have required an additional sentence in the caption of that table; other than that the manuscript is identical to the revised version.

Best wishes

Stephan Fueglistaler
