

Supplement of

Airborne determination of the temporo-spatial distribution of benzene, toluene, nitrogen oxides and ozone in the boundary layer across Greater London, UK

M. D. Shaw et al.

Correspondence to: C. N. Hewitt (n.hewitt@lancaster.ac.uk)

Supplementary Material

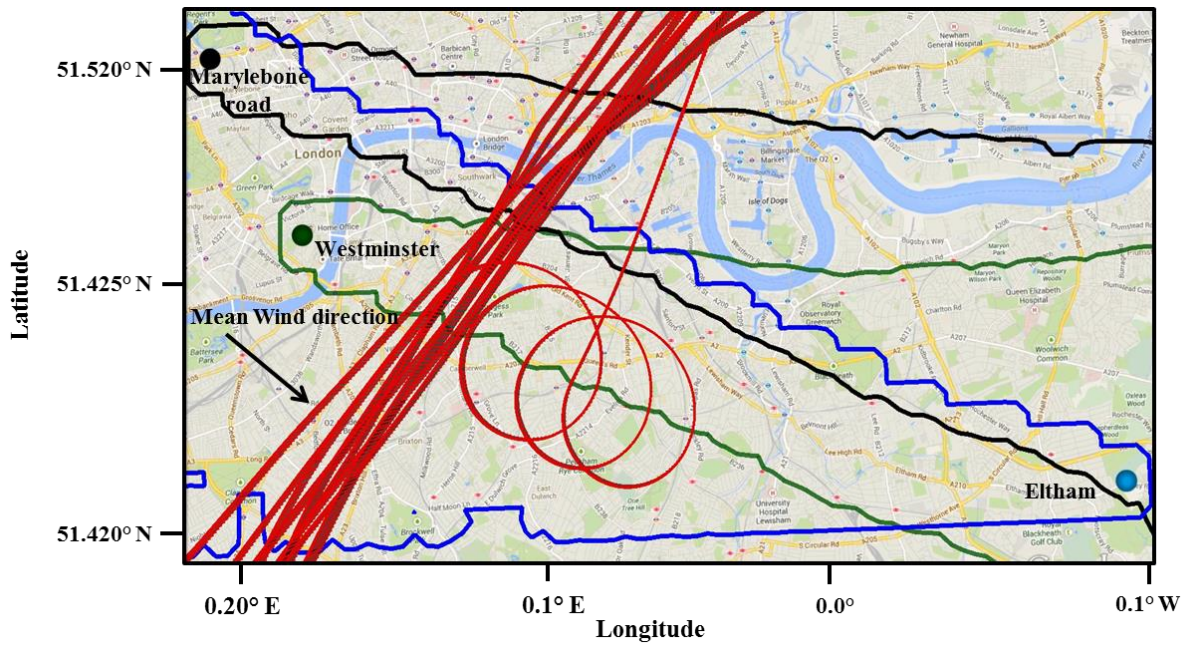

Figure S-1. Flight track and NOAA HYSPLIT particle dispersion plots for three LAQN ground monitoring sites located in Greater London during RF 5 (10:30 – 13:00 local time, 3/7/13).

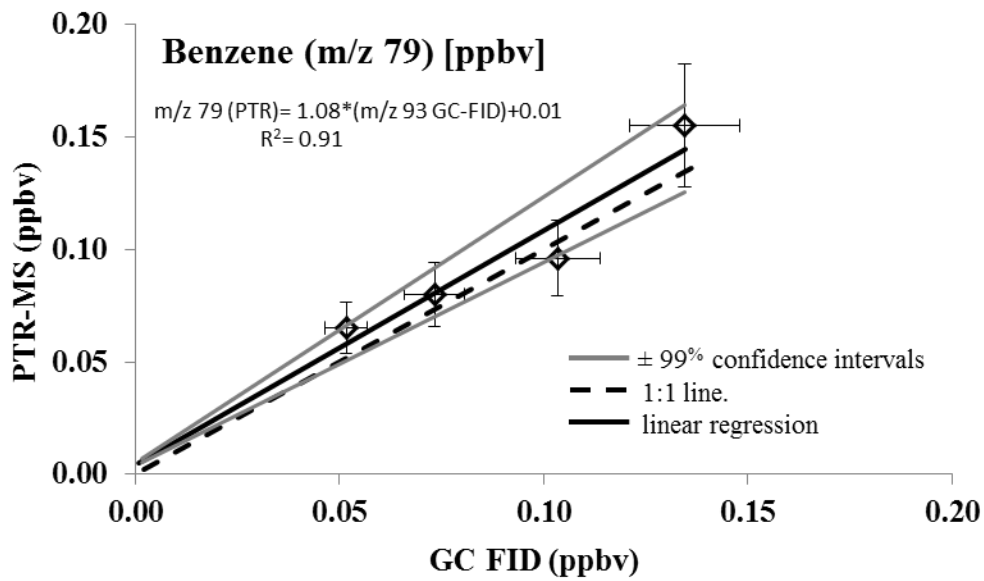

Figure S-2. Scatter plots of VOC concentrations (ppbv) (benzene and toluene) of PTR-MS against WAS TD-GC-FID measurements at 360 ± 10 m a.g.l.
