Received and published: 25 April 2014

We appreciate the reviewer for the valuable and constructive comments along with kind English corrections. As indicated in the following point-by-point responses provided with a pdf supplement, we will incorporate the reviewer’s comments into our revised manuscript. We have performed many additional analyses and provided supplementary figures, which make our study improved and stronger. Texts, figures, and tables are modified, based on those additional works and new references. Please find our response in supplement pdf.
