Received and published: 25 April 2014

We thank the reviewer for the careful reading and valuable and constructive comments. Following the referee's comments, original texts, figures, and tables have been modified. We have performed many additional analyses and provided supplementary figures, which make our study improved and stronger. Additional minor changes will be also included in the revised manuscript as indicated in our response. Please find our response in supplement pdf.

Please also note the supplement to this comment:

C1790
