

## ***Interactive comment on “Single-particle characterization of the High Arctic summertime aerosol” by B. Sierau et al.***

**B. Sierau et al.**

berko.sierau@env.ethz.ch

Received and published: 10 January 2014

Due to a mistake by ACPD in the publication process of the proof-read article, the structure of Section 3.1 “Particle type definitions” was adopted incorrectly.

The sections

“Inorganic carbonaceous types” (p606,l21), “Sea salt types” (p607,l21), “K-CN-sulfate type” (p608,l10), “Metal type” (p608,l17), “Soil dust type” (p608,l20), “Unidentified particles” (p608,l6)

supposed to be equivalent. This will be corrected in case of acceptance.
