

1 Figure 6. As in Fig. 4, but showing reflectivity over northern Taiwan and the upstream area  
 2 every 10 min from (a) 19:40 UTC to (o) 22:00 UTC 11 Jun 2012 using a different set of  
 3 colors. The arrows mark the initiation or strengthening of back-building cells, off the western  
 4 end of a rainband or upstream from an old cell.
