Received and published: 30 April 2016

First of all we would like to thank the editor and referees for their times and constructive comments. Their remarkable input has improved the manuscript tremendously. Please attached find the revised manuscript with track changes. The abstract and figures are also included in the attachment. Since figure numbers were renumbered, we attached a table in a pdf file to the show the current figure numbers in comparison with previous ones.

Please also note the supplement to this comment:
