## ***Interactive comment on “Five-year flask measurements of long-lived trace gases in India” by X. Lin et al.***

**X. Lin et al.**

xin.lin@lsce.ipsl.fr

Received and published: 27 July 2015

Thanks a lot for your careful review and comment. Following your suggestion, we added this information to the fourth paragraph of the Conclusion section in the revised manuscript. We also referred to Tiwari et al. (2014) in Section 3.1.1 to discuss the CO<sub>2</sub> seasonal cycle observed at the Indian stations.
