

Interactive comment on “Observation of a tidal effect on the Polar Jet Stream” by C. H. Best and R. Madrigali

M. Palm (Editor)

mathias.palm@uni-bremen.de

Received and published: 3 November 2015

Dear Mr. Drake,

please provide a more substancial comment to the manuscript "Obseravtion of a tidal effect on the Polar Jet Stream" by Best and Madrigali if you want your concern about the quality and significance of the study to be taken into account.

Kind regards Mathias Palm
