

## ***Interactive comment on “Factors controlling Arctic denitrification in cold winters of the 1990s” by G. W. Mann et al.***

### **Anonymous Referee #2**

Received and published: 12 February 2003

Correction to my own review:

Specific comment 2):

p. 2561, l. 1-3: it would be good to write "In one case study, using a highly idealized approach, we show..." because in your case study the flow was unbalanced (i. e. not realistic).
