

Interactive comment on “The flux of carbonyl sulfide and carbon disulfide between the atmosphere and a spruce forest” by X. Xu et al.

X. Xu et al.

Received and published: 28 May 2002

In the original paper published in ACPD, the X-axis labels of figures 4, 5, and 6a, are partially or completely invisible. The X-axis labels should be “**CO₂ flux by REA, $\mu\text{mol m}^{-2} \text{s}^{-1}$** ” for Fig. 4, “**Local time**” for Fig. 5, and “**PAR, $\mu\text{E m}^{-2} \text{s}^{-1}$** ” for Fig. 6a.
