

Interactive comment on “Halogen Occultation Experiment (HALOE) and balloon-borne in situ measurements of methane in stratosphere and their relation to the quasi-biennial oscillation (QBO)” by P. K. Patra et al.

P. K. Patra et al.

Received and published: 23 May 2003

We thank the referee for appreciating our work and providing us with the detailed list of up-to-date references. I read quite a few of those thoroughly and that have been a good learning process altogether. Finally, a few references, we think, are closely linked to this work and we plan to include related discussion in the revised version of the manuscript.
