

Interactive comment on “A review of the Match technique as applied to AASE-2/EASOE and SOLVE/THESEO 2000” by G. A. Morris et al.

G. A. Morris et al.

Received and published: 15 September 2004

We thank the reviewer for catching the problems with the figures. Figure 2 was improperly posted in the original document. That figure should have been corrected now. Also, we have revised Figures 3 - 5 as suggested by the reviewer so that the vertical axis tick marks are consistent with the scaling.
