

## ***Interactive comment on “Comparison of the levels of organic, elemental and inorganic carbon in particulate matter in six urban environments in Europe” by M. Sillanpää et al.***

### **Anonymous Referee #1**

Received and published: 21 June 2005

A major problem is the data on crustal material in table 6. The standard ratio of Al to Si is 0.3 in all publications I have seen for W-Europe. It is also noted that there is no reference to these studies in this paper.
