

Interactive comment on “Imaging gravity waves in lower stratospheric AMSU-A radiances, Part 1: simple forward model” by S. D. Eckermann and D. L. Wu

S. D. Eckermann and D. L. Wu

Received and published: 3 July 2006

We thank anonymous reviewer #2 for his/her careful reading of our manuscript and the generous comments.

We will look to reduce the size of the manuscript in final revision, through condensation of text and elimination of any superfluous figures.
