Comment

Interactive comment on “Some experimental constraints for spectral parameters used in the Warner and McIntyre gravity wave parameterization scheme” by M. Ern et al.

M. Ern et al.

Received and published: 31 August 2006

We would like to thank both Referees for their careful review of the manuscript and for the comments which we highly appreciated. We will revise the manuscript according to the suggestions of the Referees in due time. The point-by-point replies to the Referee comments are already available in the interactive discussion section. We hope that the revised manuscript will meet the requirements for publication in ACP.

Manfred Ern (on behalf of all co-authors)
