Received and published: 12 December 2006

I want to point out that the treatment of interference errors in infrared remote sounding of the atmosphere has already been done. See Equations 30 and 39 in the following citation

[1] K. Bowman, C. D. Rodgers, S. S. Kulawik, J. Worden, E. Sarkissian, G. Osterman, T. Steck, M. Lou, A. Eldering, M. Shephard, H. Worden, M. Lampel, S. Clough, P. Brown, C. Rinsland, M. Gunson, and R. Beer. Tropospheric emission spectrometer: Retrieval method and error analysis. IEEE TRANSACTIONS ON GEOSCIENCE AND REMOTE SENSING, 44(5), May 2006.

The first use of cross-state error was discussed in Section 3.3 of

The use of this approach for their studies is great. But, they can not claim to be the first who have studied it.
