

## ***Interactive comment on “Waterfalls as sources of small charged aerosol particles” by L. Laakso et al.***

**L. Laakso et al.**

Received and published: 14 February 2007

Referee 2:

First of all, we are grateful for the reviewers for providing information about earlier studies unknown for us. Reading the corresponding articles greatly improved both our knowledge and this paper as well.

Discussion about earlier work and references added as suggested by the referee.
