

Interactive comment on “Retrieval of temperature profiles from CHAMP for climate monitoring: intercomparison with Envisat MIPAS and GOMOS and different atmospheric analyses” by A. Gobiet et al.

A. Gobiet et al.

Received and published: 6 April 2007

Following the suggestions of both Reviewers, we'll keep Figure 2 in the paper. Of course, the information about the numerical incorrectness in GFZ retrieval version 005 will be added and discussed and Dr. Wickert will be cited as described in our response to his comment.
