

Interactive comment on “Twenty-five years of continuous sulphur dioxide emission reduction in Europe” by V. Vestreng et al.

V. Vestreng et al.

Received and published: 21 May 2007

Response to referee, J. Theloke

We would like to thank the reviewer for pointing out three areas where our manuscript should be corrected.

Page 5123, line 10: The reviewer is correct. We had the wrong figure reference. The figure number on page 5124, line 11 will be corrected to Fig. 2 in the final form of the manuscript.

Page 5122, line 12: 1. The typo will be corrected in the final form of the manuscript.

Page 5123, line 24: 2. We fully accept the proposal to add SO₂ to the section heading. This will be done in the final form of the manuscript.
