

Interactive comment on “Some considerations about Ångström exponent distributions” by F. Wagner and A. M. Silva

F. Wagner and A. M. Silva

Received and published: 19 November 2007

We would like to acknowledge the comment by Wehrli "under low AOD conditions, the AE is also rather sensitive to errors in Rayleigh correction, resp. pressure normalization". We will include this comment in the revised version and we used it in our reply to the reviewers.
