

Interactive comment on “Oceanic phytoplankton, atmospheric aerosol and Raman scattering impacts on space-based ultraviolet radiance measurements” by R.-M. Hu and R. S. Sokhi

R.-M. Hu and R. S. Sokhi

Received and published: 13 December 2007

Thanks for comments to stimulate the discussions on a very important issue. Some important details which O. Torres mentioned have been addressed in the reference by Hu et al [2007] and Hu et al [2002]. We think most important aspects have been addressed aside from a few less important details. The detailed responses to his comments will be given shortly.
