Interactive comment on “A combined particle trap/HTDMA hygroscopicity study of mixed inorganic/organic aerosol particles” by A. A. Zardini et al.

A. A. Zardini et al.

Received and published: 25 June 2008

We write (Page 5243, lines 20): "The same behavior for pure citric acid was observed by Joutsensaari et al. (2001) using an H-TDMA technique." The suggested paper is now included in bibliography.
