

Interactive comment on “Parameterization of middle atmospheric water vapor photochemistry for high-altitude NWP and data assimilation” by J. P. McCormack et al.

I. MacKenzie

iamack@staffmail.ed.ac.uk

Received and published: 22 August 2008

Another, slightly more detailed, parameterization of middle-atmospheric H₂O chemistry which shares some features with that presented here is described by MacKenzie and Harwood J. Geophys. Res 2004, doi:10.1029/2003JD003590. This might be mentioned along with the simple ECMWF treatment.
