

Interactive comment on “The travel-related carbon dioxide emissions of atmospheric researchers” by A. Stohl

M. Heimann (Editor)

martin.heimann@bgc-jena.mpg.de

Received and published: 16 September 2008

I concur with the authors response to the anonymous reviewer that this paper is in the scope of ACP. The travel pattern of NILU employees and scientists is interesting, as well as the associated carbon dioxide emissions.
