

Interactive comment on “Ship emitted NO₂ in the Indian Ocean: comparison of model results with satellite data” by K. Franke et al.

O. Cooper (Editor)

Owen.R.Cooper@noaa.gov

Received and published: 10 October 2008

Dear Dr. Franke,

Three anonymous referees have provided very thorough reviews of your recent submission to ACPD. They have all listed various major concerns which will require a major revision of your manuscript. When you submit the revised manuscript please also provide a point-by-point response to each of their comments and indicate the line numbers in the revised text where any corrections or additions occur

In addition I have two minor comments of my own.

Page 2 line 40 Where exactly in the North Atlantic does the 56 ppbv ozone occur? Do Eyring et al. give an estimate of the amount of ozone that is produced from ship
