Interactive Comment

Interactive comment on "Model analysis of the factors regulating the trends and variability of carbon monoxide between 1988 and 1997" by B. N. Duncan and J. A. Logan

P. Monks (Editor)

P.S.Monks@leicester.ac.uk

Received and published: 13 October 2008

After reviewing the manuscript the paper is clearly of the requsite quality for publication in ACP. The work is of clear importance in respect of understanding and quantifying the long term trends in the global oxidising "capacity". The paper should be published subject to the comments of referee #1.
