Interactive comment on “Changes in the production rate of secondary aerosol particles in central Europe in view of decreasing SO₂ emissions between 1996 and 2006” by A. Hamed et al.

A. Hamed et al.

amar.hamed@uku.fi

Received and published: 14 July 2009

In figure 5a that shows GR (nm/h): By mistake the bar colours were mixed up. In the current (Fig.5a) the red colour should refer to 2003-2006 and black colour to 1996-1997. Attached new colour-corrected figure.
