

Interactive comment on “The ARCTAS aircraft mission: design and execution” by D. J. Jacob et al.

A. Stohl (Editor)

ast@nilu.no

Received and published: 9 September 2009

The following comment by the reviewer requires clarification:

"By accepting this manuscript for publication in ACPD, the editors have evidently decided that this manuscript meets the scientific content requirement for publication."

The paper was found acceptable for publication in ACPD by the editor. However, this does not mean automatically that the editor will find the paper acceptable also for ACP. This decision will be based on the evaluation done by the reviewers and possibly on other comments published during the open discussion phase.
