

## ***Interactive comment on “Characterization of a large biogenic secondary organic aerosol event from eastern Canadian forests” by J. G. Slowik et al.***

**J. G. Slowik et al.**

jslowik@chem.utoronto.ca

Received and published: 21 September 2009

We appreciate the reviewer’s comments and will provide a complete response shortly. However, the reviewer has noted an error in Fig. 4 (backgrounds denoting anthropogenic, biomass burning, and biogenic case studies are absent), which we wish to correct immediately so that the discussion may continue. The corrected figure appears below.
