

Interactive comment on “Hydration and dehydration at the tropical tropopause” by C. Schiller et al.

C. Schiller et al.

c.schiller@fz-juelich.de

Received and published: 12 November 2009

The comment by M. G. Lawrence is very helpful pointing out that not only Lagrangian studies as in our manuscript but also Eulerian models result in similar conclusions. We will add this idea in the last paragraph of the final manuscript including the Lelieveld et al. 2007 reference.
