Dear, A. Frank-Kamenetsky. Thank you for comment on weather conditions at the “Vostok” station. I know that “Meteoinfospace” data on 15 April is wrong. I directed the attention of Dr. Shumilov on this web-site intentionally. Dr. Shumilov has not paid attention on wrong data. What is more he has commented on these data. This fact is evidence that authors have no information on meteorological conditions on this day. In the near future I will present the OFFICIAL weather report of the Murmansk Service for Hydrometeorology and Environmental Monitoring on weather conditions in the Apatity

C9911

on 15 April, 2001.
