

## ***Interactive comment on “The formation, properties and impact of secondary organic aerosol: current and emerging issues” by M. Hallquist et al.***

**T. Koop**

thomas.koop@uni-bielefeld.de

Received and published: 31 March 2009

We have spotted a mistake in the reference list provided in our comment SC S1156.

The following reference (referred to under point 3) is missing from the reference list:

B. Zobrist, C. Marcolli, D. A. Pedernera, and T. Koop, Do atmospheric aerosols form glasses?, Atmos. Chem. Phys., 8, 5221-5244, 2008.

Instead, the following reference should be removed:

B. Zobrist, T. Koop, B. P. Luo, C. Marcolli, and T. Peter, Heterogeneous Ice Nucleation Rate Coefficient of Water Droplets Coated by a Nonadecanol Monolayer, J. Phys. Chem. C, 111, 2149-2155, 2007.

I apologize for the confusion.
